

MS Word Practical Assignment: Creating a Structured Document

Assignment Title

Create a Professional Document Using MS Word Styles and Layout Features

Objective

Create a **4–5 page professionally formatted document** on the topic “**Climate Change and Its Impact**” using Microsoft Word.

The purpose of this assignment is to practice creating a well-structured document using **Styles, Cover Page, Page Breaks, Table of Contents, Images, and Page Numbers**.

Topic

Climate Change and Its Impact

Your document should explain what climate change is, its causes, effects, and possible solutions.

Document Requirements

1. Cover Page

Create an attractive **Cover Page** containing:

- Document title: **Climate Change and Its Impact**
- Student Name
- Course/Class
- Date
- Institution/Training Centre Name

Use an appropriate built-in **Cover Page** design from MS Word.

2. Document Structure

The document should contain approximately **4–5 pages of content**, excluding the cover page if required.

Use appropriate **Heading Styles** to organize the content.

Chapter 1: Introduction to Climate Change

Use **Heading 1** for the chapter heading.

Include sections such as:

- **1.1 What is Climate Change?**
- **1.2 Difference Between Weather and Climate**
- **1.3 Why Climate Change Matters**

Use **Heading 2** for section headings.

Chapter 2: Causes of Climate Change

Include sections such as:

- **2.1 Greenhouse Gases**
- **2.2 Burning of Fossil Fuels**
- **2.3 Deforestation**
- **2.4 Industrial Activities**

Chapter 3: Effects of Climate Change

Include sections such as:

- **3.1 Rising Temperatures**
- **3.2 Melting Glaciers and Rising Sea Levels**
- **3.3 Extreme Weather Events**
- **3.4 Impact on Wildlife and Ecosystems**

Chapter 4: Solutions and Prevention

Include sections such as:

- **4.1 Renewable Energy**
- **4.2 Energy Conservation**
- **4.3 Afforestation**
- **4.4 Individual Actions**

Chapter 5: Conclusion

Write a short conclusion summarizing the importance of addressing climate change.

3. Apply Styles

Use MS Word's built-in Styles appropriately.

Content	Required Style
Main Document Title	Title
Chapter Headings	Heading 1
Section Headings	Heading 2
Normal paragraphs	Normal

Do not manually format every heading separately. Use the appropriate **Styles**.

4. Table of Contents

Insert an automatic **Table of Contents** after the Cover Page.

The Table of Contents should automatically display:

- Chapter headings
- Section headings
- Corresponding page numbers

Important: Do not type the Table of Contents manually.

5. Page Breaks

Use **Page Break** appropriately to organize the document.

For example:

- Cover Page → Page Break
- Table of Contents → Page Break
- Each major chapter may begin on a new page where appropriate.

Do **not** create new pages by repeatedly pressing the **Enter** key.

6. Insert Images

Insert at least **3 relevant images** related to climate change.

Examples:

- Greenhouse effect
- Melting glaciers
- Renewable energy
- Forests or deforestation
- Extreme weather

Images should:

- Be relevant to the surrounding content.
- Be properly positioned.
- Have appropriate text wrapping.
- Not cover or overlap the text.

At least **one image should have a caption**.

7. Page Numbers

Insert **page numbers in the Footer**.

Requirements:

- Page numbers should appear consistently throughout the document.
- The Cover Page should preferably not display a page number.
- Use the appropriate Header & Footer options to achieve this.

8. General Formatting

Maintain a professional appearance throughout the document.

Use:

- Consistent font styles and sizes
- Proper paragraph alignment
- Appropriate line spacing
- Consistent heading formatting
- Proper margins
- Consistent spacing before and after headings
- Clear page layout

Avoid excessive use of different fonts, colors, and decorative formatting.

Final Checklist

Before submitting, make sure your document contains:

- ☐ A professional Cover Page
- ☐ 4–5 pages of meaningful content
- ☐ Title Style
- ☐ Heading 1 Styles
- ☐ Heading 2 Styles
- ☐ Automatic Table of Contents
- ☐ Appropriate Page Breaks
- ☐ At least 3 relevant images
- ☐ At least 1 image caption
- ☐ Page numbers in the Footer
- ☐ Proper paragraphs and spacing
- ☐ Consistent and professional formatting
- ☐ No unnecessary blank pages

Submission

Save the document using the following filename format:

StudentName_ClimateChange.docx

Submit the completed **MS Word (.docx)** file.

Evaluation Criteria

Criteria	Marks
Cover Page	5
Proper use of Styles	10
Table of Contents	10
Document Structure & Content	10
Page Breaks & Page Numbers	5
Images & Captions	5
Overall Formatting & Presentation	5
Total	50
